LANTOIL

It is said of a certain friend of ours that he went off the deep end.

Strange expression, that! It can mean that a person had a mental breakdown, or that he became a sort of fanatic; or it can mean simply that he got too interested in one thing to the exclusion of other important matters.

And the very fact that our generation has coined such an idiom is indicative of the fact that we see such tragedy every day.

One of the vital contributions of religion to life is its gift of balance. The knowledge of God helps a man see all else in its proper perspective.

In a day when millions are caught in turbulent crosscurrents, faith points to the true center of existence . . . worship steadies the mind and heart!

If you think you're seeing more and more Plymouth Furys on the road, you're right.

This is the hottest-selling Fury in history.

Here's why:

Fury for '65 is the biggest, plushest Plymouth ever ... but still solidly in the low-price class.

Big on the outside, its wheelbase is a whopping 119 inches. Big on the inside, plenty of headroom, legroom and hiproom. And new curved-glass side windows add to Fury's contemporary styling. The plush part is the beautiful interior. There's rich upholstery to compliment the exterior

finish, wall-to-wall nylon carpeting and a smart, readable instrument panel. No wonder you're seeing more and more Plymouth Furys on the road.

If you want more good reasons for buying Fury, see your Plymouth Dealer. He drives one too.

State Board Rejects Adams County School Plan WHY?

Our Professional Opinion

As Presented To The State Board Of Education

December 4, 1964

State Board of Education 333 Education Building Harrisburg, Pennsylvania

Gentlemen:

The professional staff of the Gettysburg Area School System at its November meeting voted unanimously in support of a six-unit system of schools for Adams County, in order to maintain the independent identity of our present school structure.

The Gettysburg Branch of the Pennsylvania State Education Association, representing one hundred and sixty-five (165) professional employes, concluded from discussion that:

(1) the retention of the present school organization shows greater possibilities of continued curriculum development;

(2) the close association of a local administrator encourages more effective support between the school board, administration, faculty and students;

(3) the initiation of a one-unit system in Adams County would dictate the loss of identity as a local branch of our professional state association, which identity has encouraged professional growth through locally sponsored in-service programs;

(4) the change to a one-unit system would tend to destroy community spirit and pride in the local school system which now enhances student activities around such cultural influences as the Gettysburg Battlefield, the Gettysburg College and the Lutheran Seminary;

(5) the identification of the present school structure with the national shrine at Gettysburg provides the necessary stimulus for professional, public and pupil participation in our curriculum offerings;

The professional opinions expressed herein are directed to your attention for the purpose of guaranteeing the maintenance of the instructional level now enjoyed by the students of this community. We respectfully request your strong consideration of these expressions.

> Gettysburg Education Association, Branch Pennsylvania State Education Association

Our Questions . . . Have

been prompted by the recent decision of the State Board of Education which implies that your present school organization has not been able to provide "comprehensive" educational programs for all pupils of Adams County.

The originally adopted 6-unit plan was challenged by a minority appeal.

Based upon the information made public up to this time, it would appear that this appeal was upheld while the interests of the majority may have been overlooked.

- 1. What is meant by "more comprehensive" education?
- 2. Will you be really represented locally on
- 3. How will the new system affect the stability of presently established curricula?

a small nine-member board?

- 4. Where is the evidence to substantiate claims of proposed educational progress in a single unit?
- 5. Will reorganized county system recognize current educational leadership in individual local structure?
- 6. Will the possibility of a power struggle among the merged area representatives serve the best interests of education in Adams County?
- 7. Are the goals of reorganization designed to make your child better educated-or more easily managed?
- 8. Has present progress in curriculum been guaranteed to be maintained in your school? By whom?

- 9. Will special services as they now exist be guaranteed to your child?
- 10. Will such services be operated in all areas? If not, how will locations be de-
- 11. If location is centralized, who will pay transportation costs of pupils? Where is the saving of transportation costs?
- 12. Could special services which do not now exist be imposed upon an attendance area? Could this be done at the expense of some established program of local
- 13. Do you realize that perpetuation of the present six-unit system in the county would in no way jeopardize the establishment of any of the following:
 - a. Community Junior College
 - b. Adult Education c. Area Technical School
- 14. What facts have been presented to guarantee savings, efficiency and progress of a single-unit county system of education?

PROCLAMATION

Whereas, the professional staff of the Gettysburg Area Joint School System, in agreement with the goals evident and implied in the motto "Truth our guide—the public good our aim," as adopted by The Gettysburg Times, do hereby pose the above questions to the citizens of Adams County.

If YOU, the citizens of Adams County permit:

- 1. The above questions to go unanswered;
- 2. The proponents of the single-unit system of education to go unchallenged;

YOU have by default and apathy relinquished to others the constitutional right to plan, provide and watch over the maintenance of quality education for your youth.

IF THIS IS YOUR CHOICE . . . SO BE IT!

PITTSBURGH (AP) - The Pennsylvania Milk Control Commission says rebates in the milk industry are a violation of state law, and it wants this understood by everybody con-

cerned. The commission issued that statement at a milk hearing Thursday after witnesses had 6:15-Between the Lines testified that former members of the commission apparently 6:35-Adams County Roundtable condoned the practice of making rebates.

The statement said: "So that it may be crystal 7:30-News clear to everyone this commis- 7:35-Lombardoland USA sion . . . reaffirmed what has always been their firm policy. that such practices . . . are in violation of the (Milk Control) 9:10-Serenade in the Night

CALLED "NECESSARY"

The statement was signed by Commissioners J. Lin Huber By THE ASSOCIATED PRESS and Joab K. Mahood. The other ZANESVILLE, Ohio - Doug commissioner, G. Emerson Agin, 134, Zanesville, outpointed Work, was not present.

Earlier in the week, an offi- burgh, 8. cial of the Erie-Crawford Co-operative had testified that for-Burruni, 116, Italy, stopped Jomer commissioners Simon K. seph Horny, 1121/2, Belgium, 5. did nothing about it.

practice was necessary to meet weight title. competition from out-of-state dairy farmers who could sell permitted for Pennsylvania milk at lower prices than were dairymen.

SECURE YOUR BABY'S **FUTURE**

Start today. Watch your savings grow, too.

When it is time to begin preparing for your new baby, be sure that he will be financially secure. Although insurance plans will help to protect him, it is wise to open a savings account. Then, your child's future is secure. At Adams County National Bank you not only save money, but time too. We are a full service bank providing loans, checking accounts and trust service. And when you bank here, your credit in the community is established.

Chevrolet

rorzpower

"walks" right over bumps and trouble

Independent front suspension takes the "truck" out of truck ride. It smooths rough roads, protects truck, driver and cargo from excessive jolting. And on Chevrolet pickups it's a proved system with millions of miles of user experience behind it. Try it out on one of Chevrolet's great Fleetside or Stepside pickups. It's one of the big reasons that Chevrolet is first choice with pickup users from coast to coast.
